Date of Visit : 25/02/2025

Number of Students: 9 female + 18 male =27

Course/Department: Chemistry

Objective:

The objective of this industrial visit was to provide students with practical exposure and hands-on experience in Agro Field. The visit aimed to bridge the gap between theoretical knowledge and industrial practices.

Company Overview:

Sahyadri Agro is a leading Agro company that specializes in Agro Product such as kisan Jam ,ketchup, dry vegetables, etc. The company has been in operation for 9 years and has established itself as a major player in the local as well as international market.

Visit Details:

1. Pre-Visit Briefing

The students were briefed by the company's representative about the company's history, products, and services.

3. Interaction with Employees

The students interacted with the company's employees, who shared their experiences and provided insights into the industry.

4. Question-Answer Session

The students participated in a question-answer session, where they clarified their doubts and gained a deeper understanding of the industry.

Observations and Learnings :

- The students gained practical knowledge about Agro Products and its applications in the industry.- The visit helped students understand the importance of teamwork, communication, and problem-solving in an industrial setting.
- The students learned about the latest technologies and trends in the industry.

Recommendations:

- The company could provide more hands-on experience for students.
- The company could consider providing internships or job opportunities to students.

Conclusion:

The industrial visit to Sahyadri Agro was a valuable learning experience for the students. The visit provided students with practical exposure and hands-on experience in Agro Field. The students gained valuable insights into the industry and developed a deeper understanding of the theoretical concepts learned in the classroom.
